SKILLS

Programming
Python, C++ (C++17), SQL, Verilog, JavaScript

Data & ML
Pandas, NumPy, scikit-learn, data preprocessing

Web & Backend
Next.js, React, HTML, CSS, Tailwind CSS, FastAPI, REST API, PostgreSQL

Systems & Tools
Linux, Git

LANGUAGES

Bengali
Mother tongue

English
IELTS in progress (score to be added)

ABOUT ME

Computer Science and Engineering student at BRAC University with hands-on experience in machine learning, database systems, full-stack web development, and RISC-V hardware/software co-design. Completed a data preparation internship building validation and deduplication pipelines in Python and SQL for downstream analytics and ML workflows. Particularly interested in systems programming, edge computing, and intelligent systems.

EDUCATION AND TRAINING

B.Sc. in Computer Science and Engineering
23/09/2023 – Present

BRAC University, Dhaka, Bangladesh

Core coursework: Data Structures & Algorithms, OOP, Database Systems, Operating Systems, Computer Architecture, Machine Learning.

Higher Secondary Certificate (HSC), Science
01/09/2020 – 08/02/2023

Government Science College, Dhaka, Bangladesh | **GPA 5.00/5.00**

Core subjects: Physics, Chemistry, Higher Mathematics, Biology, English, ICT.

Secondary School Certificate (SSC), Science
01/01/2018 – 01/03/2020

Adamjee Cantonment Public School, Dhaka, Bangladesh | **GPA 5.00/5.00**

Core subjects: Physics, Chemistry, Higher Mathematics, General Mathematics, Biology, English, ICT.

PROJECTS

RISC-V Edge AI Hardware/Software Co-Design
12/10/2026 – Present

- Designed a Verilog 4-way INT8 SIMD accelerator with systolic matrix multiplication for edge deep learning on FPU-less RISC-V architectures.
- Built an allocation-free C++17 runtime for quantized GEMM layers; benchmarked instruction-count efficiency against baseline routines using the Spike simulator.

GitHub: sajedulislam5840/riscv-edge-ai

AZS: The Catalyst
10/10/2026 – 31/10/2026

- Engineered a full-stack EdTech platform using Next.js, React, Tailwind CSS, and FastAPI on a PostgreSQL relational database.
- Implemented RBAC authentication, cohort management, automated material delivery, and integrated AI tutoring workflows.

GitHub: sajedulislam5840/AZS-The-Catalyst

Career Switch Prediction System
06/06/2026 – 08/08/2026

- Built an end-to-end tabular classification pipeline across 5,000 professional profiles using Python (Pandas, scikit-learn).
- Mitigated class imbalance via class-weighted loss penalties (optimized for Recall/ROC-AUC); evaluated with leakage-free stratified K-fold cross-validation.

GitHub: sajedulislam5840/career-switch-prediction

SparkEnergies Billing & Ledger Engine
04/03/2026 – 18/05/2026

- Architected a 3NF PostgreSQL schema managing multi-tier utility tariffs, metered consumption, and invoice lifecycles.
- Developed an ACID-compliant double-entry ledger with idempotent processing, constraints, and indexed queries for zero-drift financial reconciliation.

GitHub: sajedulislam5840/sparkenergies-billing

WORK EXPERIENCE

Data Preparation Specialist Intern
01/08/2025 – 01/03/2026

DataSynthis, Dhaka, Bangladesh

- Audited, preprocessed, and validated large tabular datasets using **Python** (Pandas, NumPy) and **SQL** to detect outliers and maintain schema integrity.
- Built automated cleaning and deduplication pipelines delivering structured, versioned data for downstream machine learning and analytics workflows.

CERTIFICATIONS

Python Essentials 1 · Cisco Networking Academy — 02/10/2024

Introduction to Data Science · Cisco Networking Academy — 27/09/2024

VOLUNTEERING

Cadet, Bangladesh National Cadet Corps (BNCC)
12/02/2021 – 22/01/2022

Government Science College Platoon, Dhaka

- Led drill formations and conditioning; completed Battalion Camping (2022); earned BNCC Army wing and Graphics Design certificates; won track awards (100 m sprint, high jump).
